Course Schedule  
2013

Approved PACE Program Provider FAGD/MAGD  
Credit Approval does not imply acceptance by a  
State or provincial board of dentistry. AGD  
Endorsement. (07/01/09) to (06/21/13)

# Academy of Comprehensive Dental Studies

## Our 39<sup>th</sup> Year

### **A Seismic Shift is Coming and Once Again We're Ahead of the Curve.**

The esthetic dentistry age of the eighties gave way to the high-tech age of the nineties which gave way to the implant age of the last ten years. What's next? Welcome to the CAD/CAM revolution. It's here, finally refined, affordable and moving quickly.

This year, New Jersey's oldest and most respected study club will explore CAD/CAM technology in all its aspects, just as we did at the beginning of esthetic dentistry. What this means is, we must study the new materials, techniques, clinical applications and pitfalls. We must understand it from the points of the dentists, the manufacturers, and the laboratories. This year's program addresses these concerns and more.

The dessert of the series is a couple of high-end restorative programs, an avant-garde esthetics course and a risk management course for our annual Staff Day.

# 2013

(Click on Class Title for Full Details)

<b>Wednesday</b>	<b>March 20</b>	<b>Dean Vafiadis</b> <i>DDS</i>	<u>Advances in Restorative Dentistry:</u>  <b><u>Part 1: Digital Dentistry: Esthetic CAD/CAM</u></b>  <b><u>Part 2: Restoring the Worn Dentition</u></b>
<b>Wednesday</b>	<b>April 10</b>	<b>Gerard Chiche</b> <i>DMD</i>	<u>Advances in Restorative Dentistry:</u>  <b><u>Part 1 - Fine Technique Details</u></b>  <b><u>Part 2 - Esthetic and Occlusal Planning</u></b>
<b>Wednesday</b>	<b>May 29</b>	<b>Cherilyn Sheets</b> <i>DDS</i>	<u>Advances in Restorative Dentistry:</u>  <b><u>Part 1 - Diagnose in a New Dimension</u></b>  <b><u>Part 2 - CAD/CAM Restorative Success</u></b>
<b>Wednesday</b>	<b>June 5</b>	<b>Larry Rosenthal</b> <i>DDS</i>	<u>Advances in Restorative Dentistry:</u>  <b><u>Interdisciplinary Esthetics</u></b>

Courses start at **8:30 AM** at the **Villa at Mountain Lakes**,  
90 Route #46 *East*, in Mountain Lakes, N.J. 07046

All courses end at **1 PM** and have one short break - Lunch is NOT served.

**AGD PACE Provider #217336 40 Hours of CE Credit Available**

Dear Constant Learner, This is a very abbreviated summary of the package of courses offered by The Academy of Comprehensive Dental Studies for 2013. Below are some highlights. Welcome to our 39th year!

### **Wednesday, March 20, 2013**

**Dean Vafiadis, DDS - NYU**

ADVANCES IN RESTORATIVE DENTISTRY:

**Part 1: DIGITAL DENTISTRY: ESTHETIC CAD/CAM**

**Part 2: DIGITAL DENTISTRY: RESTORING THE WORN DENTITION**

CAD/CAM technology reduces clinical chair time and laboratory costs. CAD/CAM accuracy is comparable to conventional techniques. The fabrication of one-visit esthetic anterior ceramic restorations in-office will be demonstrated. The fabrication of ceramic full coverage restorations and veneers using several digital scanners will be shown. This presentation will also review the current technology which allows the fabrication of an implant abutment without a fixture level impression. In addition this impression does not require the removal of the healing abutment.

Part 2 will help de-mystify how to restore VDO position up to 10 mm. The long term success of these patients has been documented and recorded both radiographically and photographically with up to 10 year results. Using sound prosthodontic principles and digital analysis these VDO restorations can become standard in our private practice. Anterior determinants and posterior determinants can show us the way through this gray area of dentistry.

**Dean Vafiadis** is a Clinical Professor of Prosthodontics at NYU and the Director of their Full Mouth Rehabilitation Program. He is in private practice in NYC.

### **Wednesday, April 10, 2013**

**Gerard Chiche, DMD – Augusta, GA**

ADVANCES IN RESTORATIVE DENTISTRY:

**Part 1: FINE TECHNIQUE DETAILS**

**Part 2: ESTHETIC AND OCCLUSAL PLANNING**

Part 1 will help you optimize clinical techniques with all ceramic crowns and porcelain veneers. It is important to establish a comfort zone by system selection criteria, cement selection, bonding technique, bonding strategy and esthetic outcomes.

Part 2 provides a step-by-step occlusal strategy for optimum protection and maximum predictability. The course will provide occlusal red flags prior to routine treatment, as well as extensive reconstruction in order to provide a complication-free restorative outcome.

**Gerard Chiche** is the Hinman endowed chair of restorative, implant and esthetic dentistry at the MCG School of Dentistry in Augusta, Georgia. He is past president of the American Academy of Esthetic Dentistry, and the author of the textbooks, *Esthetics of Anterior Fixed Restorations* and *Smile Design: A Guide for the Clinician, Ceramist, and Patient*.

**Wednesday, May 29, 2013**

**Cherilyn Sheets**, DDS – Newport Beach, CA  
ADVANCES IN RESTORATIVE DENTISTRY:  
**Part 1: DIAGNOSE IN A NEW DIMENSION**  
**Part 2: CAD/CAM RESTORATIVE SUCCESS**

During the last decade, a new technology has been developed that will give clinicians added precision in restorative risk assessment. It is called Quantitative Percussion Diagnostics, which evaluates the structural stability of natural teeth and dental implants. QPD also help patients to understand the bioengineering challenges that some teeth present due to crack propagation and other serious biomechanical problems. Combined with video documentation of the defect, it creates a powerful documentation and patient educational tool simultaneously.

Part 2 addresses failures in CAD/CAM restorations, particularly as CAD/CAM grows in popularity. As with all successful dentistry "it all starts with the prep," which is especially true in digital dentistry, as it requires more precise tooth preparation for accurate scanning. Materials selection is also more complex. Guidelines will be provided to insure predictable CAD/CAM restorations.

**Cherilyn Sheets** is a prosthodontist practicing in Newport Beach, California. She is Past President of The American Academy of Esthetic Dentistry.

**Wednesday, June 5, 2013**

**Larry Rosenthal**, DDS – New York City  
**INTERDISCIPLINARY CHALLENGES IN ESTHETIC DENTISTRY**

Expectations for esthetic dentistry outcomes are becoming even more beautiful and predictable as technology advances. There are new learning curves for both you and your ceramist to maximize these changes. Not only do the restorative dentist and the lab have new techniques to acquire, but collaborating specialists also have advanced technologies that require new paths of interdisciplinary communication. Dentistry is at a crossroads in ease of practice for both the patient and the dentist. Times are changing and the result is positive and exciting.

**Larry Rosenthal** brought glamour to dentistry. In the seventies Ronnie Goldstein brought the "smile" to post-graduate dental education. In the eighties Larry attached the "smile" to beauty. In 2002, Larry was a chief benefactor of the Rosenthal Institute for Aesthetic Dentistry at NYU.

*Of course, call me, Stuart Isler (or Gayle) at 973-625-1234 for any additional information.*

## **AGD Approved PACE Program Provider**

Continuing education credits awarded may not apply toward license renewal in all states.  
It is your responsibility to verify the requirements of your licensing board.

## Welcome to our **39<sup>th</sup> Year** **Dental Continuing Education (2013)**

**MISSION:** The mission of our study club is to provide quality CE for practicing dentists in our geographical area. The educational courses are selected by an assessment of the current needs of its members. Our members wish to provide up-to-date and proper care for the community in which they serve.

**DISCLOSURE STATEMENT:** It is our intention to assure that our CE should not be influenced by special interests of individuals associated with the programs. All commercial relationships of the speaker must be known to the participants

**COMMERCIAL SUPPORT:** Products mentioned by trade name must be in the context of competing products. ACDS does not endorse any products or services. All support is acknowledged within this document. This year a partial educational grant has been provided for Cheryl Sheets by Dentsply, Inc.

### **PREFACE**

1. The contact person for this series of courses is Stuart L. Isler, DMD (973-625-1234).
2. The provider of this series of courses is ACDS.
3. The following series of courses has **40 CE credit hours**. All courses start at 8:30 A.M. and end about 1:00 P.M. There are catered continental breakfasts and breaks. No Lunch is served.
4. The courses are available as a **“Package” only**. You cannot buy them separately. All courses are presented at the **Villa at Mountain Lakes**. Directions to the Villa can be obtained by calling them directly at 973-335-5300. It is located at 90 Route 46 East, Mountain Lakes, NJ 07046.
5. **Refund Policy:** For any reason and at any time the subscriber will receive a prorated refund for canceling his or her subscription based on the number of courses taken, but should not expect a refund for missing individual courses within the package. All requests, however, are considered on an individual subscriber's needs and situation.
6. A subscriber may transfer one or more courses within the “package” to a colleague as a substitute for the subscriber's attendance. A “package” may be purchased by more than one subscriber, so that they may “split” the package and attend the courses each prefers. **Discounts may be available for your junior associates, if you are a member. Call Gayle at 973-625-1234 for more information about discounts.**
7. All courses will be lecture and discussion courses.
8. All of our teachers are known to you due to their reputations and their previous visits to our study club, therefore, you will find their biographical sketches within this document summarized. If you need more information about any of the speakers in order to make a judgment about joining the club this year, call **Gayle at 973-625-1234**, who will assist you. She is also the person to talk to about custom payment plans.
9. This year is an open subscription year. ***Referrals to friends and colleagues are appreciated.***
